Instructions to Reviewers:

1. All individuals reviewing this application are required under 35 USC 181 to sign and date this form regardless of whether they are making a secrecy order recommendation.
2. The attached copy of the application, any copies made therefrom and this form must be returned to the PTO once a recommendation not to impose secrecy has been made or a secrecy order has been rescinded.

Time for Completion of Review:

Pursuant to 35 U.S.C. 184, the subject matter of this application may be filed in a foreign country for the purpose of filing a patent application without a license any time after the expiration of 6 months from filing date unless the application becomes the subject of a secrecy order.

The USPTO publishes patent applications 18 months from the date of filing. If a secrecy order is issued, the USPTO will delay the publication of an application until the secrecy order is rescinded. A defense agency under 35 USC 181 should not issue a secrecy order unless it is necessary to protect information from the disclosure of which the national defense would be endangered. The application will be published 18 months from the filing date, 90 days from the date of the "Date Referred" stamp on 35 USC 181, unless the secrecy order is rescinded by the USPTO. The necessary procedures are available to the transmission of a secrecy order.
